PROFESSIONAL SUMMARY

B.Tech Computer Science student specializing in Artificial Intelligence and Machine Learning, with hands-on experience building Python-based applications, machine-learning projects, NLP chatbots, and interactive data dashboards. Familiar with Python, Pandas, NumPy, scikit-learn, Streamlit, and GitHub. Interested in Python development and AI/ML opportunities where I can contribute to practical projects and continue developing my technical skills.

TECHNICAL SKILLS

Programming: Python, C, C++

Python & Data: Pandas, NumPy | **AI/ML:** scikit-learn, NLP, TF-IDF, Logistic Regression, K-Means, Isolation Forest

Application Development: Streamlit, HTML, CSS, JavaScript

Tools: Git, GitHub, VS Code | **Professional Skills:** Problem-solving, teamwork, communication, time management

PROJECTS

Nexa AI Chatbot

Technologies: Python, NLP, TF-IDF, Logistic Regression, Streamlit

Built an interactive chatbot that responds to questions about Python, machine learning, NLP, study tips, and motivation. Implemented intent recognition and a model-training workflow.

Live Demo: nexaaibot.streamlit.app | GitHub: cognevance_ai_chatbot

Sales IQ — Sales Prediction & Analytics

Technologies: Python, Pandas, NumPy, scikit-learn, Streamlit, Plotly

Developed an interactive sales analytics dashboard for exploring sales data and presenting prediction and analysis insights through visualizations.

Live Demo: salesdemo.streamlit.app | GitHub: cognevance_sales_prediction

Movie Recommendation System

Technologies: Python, Pandas, Streamlit

Developed a movie recommendation project using movie and rating datasets, with recommendations and visual insights into the data.

GitHub: cognevance_movie_recommendation

EXPERIENCE

AI/ML Intern — Cognevance Technologies | October 2026 – February 2027

- Working on project-based AI/ML tasks using Python.
- Applying machine-learning concepts to practical applications.
- Developing project documentation and sharing code through GitHub.

Front-End Developer Intern — CodeAlpha | February 2026 – March 2026

- Worked on assigned development tasks and webpage improvements.
- Practised debugging and improving user experience.
- Collaborated with mentors and team members to complete tasks within deadlines.

EDUCATION

B.Tech — Computer Science, Artificial Intelligence & Machine Learning
GRD IMT University, Dehradun | 2024–Present

Intermediate — Gyandeep Sr. Sec. Public School, Shikohabad | 2022–2024

High School — St. Dominic's Academy, Shikohabad | 2009–2022

CERTIFICATIONS

- Front-End Development Internship — CodeAlpha, March 2026
- Introduction to Computer Networking — Simplilearn SkillUp, February 2026

LANGUAGES

Hindi | English
